# electribe Ver 1.19 Release Information

## Changes in Ver 1.19 from Ver 1.18

### Bug fix

- Fixed a bug related to "SOFTWARE UPDATE"

## What you will need

- Memory card supported by electribe
- Computer with memory card adapter
- AC adapter KA350 or six AA batteries

⚠ Make sure the batteries are brand new if using alkaline or fully charged if using NiMH batteries.

## Updating the software

- Prepare a memory card that has been formatted by electribe.
- Insert the memory card into your card reader, and connect it to your computer.
- Extract electribe_xxxx.zip.
- Copy "SYSTEM.VSB" into the [System] folder under the [KORG][electribe] folder on the memory card.
- Insert the memory card containing the new system file into your electribe, and turn on the power.
- Select "SOFTWARE UPDATE" from the DATA UTILITY menu.

- Press Menu/Enter. Current version and new version will appear. Press Menu/Enter button.

- A confirmation message will appear. Press Menu/Enter button to begin the update operation.

Data Util 8/10    EDIT    ▶▣
SOFTWARE UPDATE
**Are You Sure ?**
press [ Enter ]

⚠ Do not turn off electribe while update is in progress.

- electribe will display the following screen when update is complete.
