Sending Sysex files using midiox Midiox is available from <u>www.midiox.com</u>

Before starting this procedure, please make sure that your Korg is set to receive exclusive messages. Refer to the user manual as to how to set this.

Launch the software and choose the midi devices link in the options menu.

In the following window, set the input and output ports to the midi interface you wish to use and click OK. In this case we use a Midi Sport2x2.

O MIDI Devices	×
Presets: View of the set of the s	Image: Port Mapping:
MIDI <u>O</u> utputs:	Port <u>M</u> ap Objects:
2) Out-A USB MidiSport 2x2 1) SoundMAX Wavetable Synth 3) Out-B USB MidiSport 2x2 4) Microsoft GS Wavetable SW Synth 5) MIDI Mapper	 Channels System In-A USB MidiSport 2x2 MIDI-0X Events _M0XSYSMAP1.oxm
Automatically attach Inputs to Outputs duri	ng selection.

Now load the file you want to send. Pull down the view menu and choose SysEx...

You will then be taken to a SysEx viewer

Open the command window and choose load file.

	ysEx View and S	cratchpad				
File	Command Window	Display Window	Sysex	Help		
Corr	Load File					
	Send Sysex Send/Receive Sy Send Scratch Pa	rsex d				
	Save Save As					
	Select All	Ctrl+A				
Disp	Cut	Ctrl+X			0 Bytes Received	ł
	Paste Delete Undo	Ctrl+V Del Ctrl+Z				
	• Word Wrap Hex View Swap					
Орег	Find Replace					.::

Here, midiox will let you choose the .syx file you are loading. Simply go to the folder the .syx is in and double click on it.

Open						? 🗙
Look in:	🧀 м1		~	3 🦻	ب 🔝 👏
