Pa700 ORIENTAL

Additional Musical Resources

Pa700 ORIENTAL includes additional Sounds, Styles, Keyboard Sets and Pads, that are intended to show the power of this instrument and its use in Middle Eastern music. A set of Demo Songs (marked with the MG, IR or TR suffix) will let you immediately appreciate the ORIENTAL resources.

In case you modify the Local banks, you can restore the original ORIENTAL data by using the Media > Utility > Factory Restore command. Be warned that this operation will delete any custom data before reinstalling the original data. Please see the Pa700 User Manual for more information.

Additional data are courtesy of Fadi Saade and Hani Damiri from Lebanon (MG), Cüneyt Ertaç of Can Elektronik (Turkey) (TR), Sina Tahmasbpour and Amir Hefzi of SMK Iran (IR).

Zusätzliche Musik-Ressourcen

Das Pa700 ORIENTAL enthält zusätzliche Klang-, Style-, Keyboard Set- und Pad-Musikressourcen speziell für Musikstile im Mittleren Osten. Mehrere Demosongs (mit der Kennung „MG“, „IR“ oder „TR“) greifen auf diese orientalischen Ressourcen zu.

Wenn Sie Ihre Local-Bänke später ändern, können Sie die orientalischen Werksdaten mit dem Befehl „Media > Utility > Factory Restore“ jederzeit wiederherstellen. Bedenken Sie jedoch, dass eigene Daten, die Sie dort abgelegt haben, bei Verwendung dieses Befehls überschrieben werden. Weitere Informationen hierzu finden Sie in der Bedienungsanleitung des Pa700.

Die Zusatzdaten verdanken wir Fadi Saade und Hani Damiri im Libanon (MG), Cüneyt Ertaç der Firma Can Elektronik (Türkei, TR) sowie Sina Tahmasbpour und Amir Hefzi der SMK Iran (IR).

Ressources musicales supplémentaires

Le Pa700 ORIENTAL propose des ressources supplémentaires en termes de sons, Styles, Keyboard Sets et Pads, conçues spécifiquement pour la musique orientale. Une série de morceaux de démonstration (portant le suffixe MG, IR ou TR) permet d'apprécier immédiatement ces nouvelles données.

Si vous modifiez les banques Local, vous pouvez récupérer les données orientales originales en utilisant la commande Media > Utility > Factory Restore. Songez néanmoins que le rétablissement des données d'usine efface vos données personnelles. Veuillez lire le mode d'emploi du Pa700 pour en savoir plus.

Les données supplémentaires sont dues aux Libanais Fadi Saade et Hani Damiri (MG), au Turc Cüneyt Ertaç de Can Elektronik (TR) et aux Iraniens Sina Tahmasbpour et Amir Hefzi de SMK Iran (IR).

Risorse musicali aggiuntive

Pa700 ORIENTAL contiene Sound, Style, Keyboard Set e Pad aggiuntivi, che permettono di capire le capacità effettive dello strumento e il modo in cui può essere usato per la musica del Medio Oriente. Una serie di brani dimostrativi (contrassegnati dal suffisso MG, IR o TR) permette di ascoltare subito come suonano le nuove risorse.

Siete liberi di personalizzare i banchi Local. Potete ripristinare in qualsiasi momento i dati originali della ORIENTAL con il comando Media > Utility > Factory Restore. Tenete però presente che questa operazione cancellerebbe tutti i dati personalizzati prima di reinstallare i dati originali. Vi preghiamo di consultare il manuale di Pa700 per maggiori informazioni.

I dati aggiuntivi sono stati creati da Fadi Saade e Hani Damiri dal Libano (MG), Cüneyt Ertaç di Can Elektronik (Turchia) (TR), Sina Tahmasbpour e Amir Hefzi di SMK Iran (IR).

Recursos Musicales Adicionales

Pa700 ORIENTAL incluye recursos musicales adicionales de Sonidos, Estilos, Keyboard Set y Pad, diseñados para mostrar el potencial de este instrumento y su uso en la música de Oriente Medio. Un conjunto de canciones de demostración (marcadas con el sufijo MG, IR o TR) permite apreciar inmediatamente los recursos Orientales.

En caso de modificar los bancos Local, puede restaurar los datos originales Orientales mediante el uso de los medios del comando Media > Utility > Factory Restore. Se advierte que esta operación borrará todos los datos personalizados antes de reinstalar los datos originales. Consulte el Manual de Usuario de Pa700 para obtener más información.

Datos adicionales son cortesía de Fadi Saade y Hani Damiri del Líbano (MG), Cüneyt Ertaç de Can Elektronik (Turquía) (TR), Sina Tahmasbpour y Amir Hefzi de SMK Irán (IR).
