# Pa4X ORIENTAL

## Additional Musical Resources

Pa4X ORIENTAL includes additional Sound, Style, Keyboard Set and Pad musical resources that are intended to show the power of this instrument and its use in Middle Eastern music. A set of Demo Songs (marked with the MG, IR or TR suffix) will let you immediately appreciate the ORIENTAL resources.

In case you modify the Favorite/User banks, you can restore the original ORIENTAL data by using the Media > Utility > Factory Restore command. Be warned that this operation will delete any custom data before reinstalling the original data. Please see the Pa4X User Manual for more information.

Additional data are courtesy of Fadi Saade and Hani Damiri from Lebanon (MG), Cüneyt Ertaç of Can Elektronik (Turkey) (TR), Sina Tahmasbpour and Amir Hefzi of SMK Iran (IR).

## Favorite Protect

Pa4X ORIENTAL includes a Factory and Favorite Protect checkbox in the Global > Mode Preferences > Media page. When it is selected, this parameter protects all the Factory data and the Favorite Styles from editing.

## Zusätzliche Musik-Ressourcen

Das Pa4X ORIENTAL enthält zusätzliche Klang-, Style-, Keyboard Set- und Pad-Musikressourcen speziell für Musikstile im Mittleren Osten. Mehrere Demosongs (mit der Kennung „MG“, „IR“ oder „TR“) greifen auf diese orientalischen Ressourcen zu.

Wenn Sie Ihre Favoriten/User-Bänke später ändern, können Sie die orientalischen Werksdaten mit dem Befehl „Media > Utility > Factory Restore“ jederzeit wiederherstellen. Bedenken Sie jedoch, dass eigene Daten, die Sie dort abgelegt haben, bei Verwendung dieses Befehls überschrieben werden. Weitere Informationen hierzu finden Sie in der Bedienungsanleitung des Pa4X.

Die Zusatzdaten verdanken wir Fadi Saade und Hani Damiri im Libanon (MG), Cüneyt Ertaç der Firma Can Elektronik (Türkei, TR) sowie Sina Tahmasbpour und Amir Hefzi der SMK Iran (IR).

## Favorite Protect

Auf Seite „Global > Mode Preferences > Media“ verfügt der Pa4X ORIENTAL über ein „Factory and Favorite Protect“-Kästchen. Markieren Sie das Kästchen, um alle Werksdaten und die „Favorite“-Styles vor ungewollter Editierung zu schützen.

## Ressources musicales supplémentaires

Le Pa4X ORIENTAL propose des ressources supplémentaires en termes de sons, Styles, Keyboard Sets et Pads, conçues spécifiquement pour la musique orientale. Une série de morceaux de démonstration (portant le suffixe MG, IR ou TR) permet d'apprécier immédiatement ces nouvelles données.

Si vous modifiez les banques Favorite/User, vous pouvez récupérer les données orientales originales en utilisant la commande Media > Utility > Factory Restore. Songez néanmoins que le rétablissement des données d'usine efface vos données personnelles. Veuillez lire le mode d'emploi du Pa4X pour en savoir plus.

Les données supplémentaires sont dues aux Libanais Fadi Saade et Hani Damiri (MG), au Turc Cüneyt Ertaç de Can Elektronik (TR) et aux Iraniens Sina Tahmasbpour et Amir Hefzi de SMK Iran (IR).

## Favorite Protect

A la page “Global > Mode Preferences > Media”, le Pa4X ORIENTAL dispose d'une option “Factory and Favorite Protect”. Si vous cochez cette option, toutes les données d'usine et les styles “Favorite” sont protégés contre toute modification.

## Risorse musicali aggiuntive

Pa4X ORIENTAL contiene Sound, Style, Keyboard Set e Pad aggiuntivi, che permettono di capire le capacità effettive dello strumento e il modo in cui può essere usato per la musica del Medio Oriente. Una serie di brani dimostrativi (contrassegnati dal suffisso MG, IR o TR) permette di ascoltare subito come suonano le nuove risorse.

Siete liberi di personalizzare i banchi Favorite/User. Potete ripristinare in qualsiasi momento i dati originali della ORIENTAL con il comando Media > Utility > Factory Restore. Tenete però presente che questa operazione cancellerebbe tutti i dati personalizzati prima di reinstallare i dati originali. Vi preghiamo di consultare il manuale di Pa4X per maggiori informazioni.

I dati aggiuntivi sono stati creati da Fadi Saade e Hani Damiri dal Libano (MG), Cüneyt Ertaç di Can Elektronik (Turchia) (TR), Sina Tahmasbpour e Amir Hefzi di SMK Iran (IR).

## Protezione dati Factory e Favorite

Pa4X ORIENTAL include il parametro selezionabile Factory and Favorite Protect (nella pagina Global > Mode Preferences > Media). Quando è selezionato, tutti i dati Factory e i Favorite Style sono protetti da qualsiasi tipo di modifica.

## Recursos Musicales Adicionales

Pa4X ORIENTAL incluye recursos musicales adicionales de Sonidos, Estilos, Keyboard Set y Pad, diseñados para mostrar el potencial de este instrumento y su uso en la música de Oriente Medio. Un conjunto de canciones de demostración (marcadas con el sufijo MG, IR o TR) permite apreciar inmediatamente los recursos Orientales.

En caso de modificar los bancos Favorite/User, puede restaurar los datos originales Orientales mediante el uso de los medios del comando Media > Utility > Factory Restore. Se advierte que esta operación borrará todos los datos personalizados antes de reinstalar los datos originales. Consulte el Manual de Usuario de Pa4X para obtener más información.

Datos adicionales son cortesía de Fadi Saade y Hani Damiri del Líbano (MG), Cüneyt Ertaç de Can Elektronik (Turquía) (TR), Sina Tahmasbpour y Amir Hefzi de SMK Irán (IR).

## Favorite Protect (Protección de Favoritos)

Pa4X ORIENTAL incluye una casilla Favorite Protect en la Página Global > Mode Preferences > Media. Cuando está seleccionada, este parámetro protege todos los datos de fábrica (Factory) y los estilos favoritos (Favorite) contra la edición.
